# HOLSTERS HPE POLAND & DIVISION GROUPS

In the 25th anniversary of the existence **Holsters HPE Poland** company we are pleased to introduce you the changes occurring in our company. Due to the dynamic development of the military and police market Holsters HPE company meets the expectations of customers, without compromising its well-known brand and logo, and it is transformed into **HOLSTERS HPE POLAND & DIVISION GROUPS**. The structure of the company is divided into various divisions which manufacture the specialized products.

In the 25th anniversary of the existence Holsters HPE Poland company we are pleased to introduce you the changes occurring in our company. Due to the dynamic development of the military and police market Holsters HPE company meets the expectations of customers, without compromising its well-known brand and logo, and it is transformed into HOLSTERS HPE POLAND & DIVISION GROUPS. The structure of the company is divided into various divisions which manufacture the specialized products.

#### **BALLISTIC DIVISION**

Specializes in the manufacturing of various types of soft and hard ballistic plated. It also produces ballistic shields and bulletproof helmets. It can manufacture the products according to customer's specification. The products are tested and certified in accordance with NIJ standard and Polish standards PN.

#### **ANTI-RIOT DIVISION**

The main product is a new generation of Anti-Riot Suit in D3O® technology. It is also possible to produce the suit in bulletproof NIJ III and fragmentation version. The product has been tested in accordance with BS 7971-8:2003 and Standard NIJ III. See catalog: number 2875. The division also manufactures helmets, shields, batons.

#### **PEPPER SPRAY DIVISION**

Specializes in the production of defense sprays in different configurations and types, depending on customer's need. There is also a laboratory where all products are tested to the highest European and American standards. The main customers are police, border guards, security agencies. Products are also used by individuals to whom the special versions of our gases are dedicated. We also provide training in all areas of defensive tactics of use defense sprays.

#### **HOLSTERS & PLASTICS DIVISION**

Specializes in production of holsters and accessories made of high quality leather, kydex and Cordura® material.

#### **TACTICAL & MILITARY ACCESSORIES DIVISION**

It produces a wide range of military products, such as metal handcuffs, plastic handcuffs, tonfa batons, Nomex® balaclava, bags and accessories for medical services, Nomex® gloves, reflective vests, tactical goggles, tactical vests in Molle system, sweaters, T-shirts, clothing for special teams made of various material such as Defender M®.

Zum 25-jährigen Jubiläum der Firma möchten wir Ihnen die in unserer Firma vorgenommenen Veränderungen darstellen. Im Zusammenhang mit der dynamischen Entwicklung und Bedürfnissen des militärischen und polizeilichen Marktes kommt die Firma HOLSTERS HPE POLAND den Kundenerwartungen entgegen, verzichtet dabei nicht auf ihre bekannte Marke und ihr bekanntes Logo, wandelt sich in HOLSTERS HPE POLAND & DIVISION GROUPS um und teilt die Organisationsstruktur in einzelne Divisionen ein, die sich mit Produktion und Vertrieb spezialisierter Produkte beschäftigen.

#### **BALLISTIC DIVISION**

Spezialisiert sich auf die Herstellung der Außenhaut mit unterschiedlichen weichen und harten ballistischen Einlagen; stellt auch kugelsichere Schutzschilde und Helme her; fertigt oben genannte Produkte nach Kundenspezifikation; Alle Endprodukte werden geprüft und zertifiziert und entsprechen NIJ-Standard und polnischen Normen (PN).

#### **ANTI-RIOT DIVISION**

Hauptprodukt ist die Schlagschutzkleidung in der neuesten Technologie D3O® sowie in der kugelsicheren Ausführung NIJ III und in der stichhemmenden und splittersicheren Ausführung. Das Produkt entspricht der Norm BS 7971-8:2003 dem Standard NIJ III. Artikelnummer 2875. Die Division stellt auch Helme, Schutzschilde und Schlagstöcke her.

#### **PEPPER SPRAY DIVISION**

Spezialisiert sich auf die Herstellung von Verteidigungssprays verschiedener Art und Konfiguration je nach Kundenbedarf; Wir verfügen auch über unser eigenes Forschungslabor, wo alle Produkte nach höchsten europäischen und amerikanischen Standards getestet werden. Hauptabnehmer sind die Polizei, der Grenzschutz und Bewachungsdienste. Die Produkte werden auch von individuellen Kunden eingesetzt, für welche Spezialversionen unserer Gase bestimmt sind. Wir führen auch Schulungen für Geheimdienste im Bereich der Handhabung und des Einsatzes von Verteidigungssprays durch.

#### **HOLSTERS & PLASTICS DIVISION**

Spezialisiert sich auf die Herstellung von Holstern, Kydex® und Cordura.

#### **TACTICAL & MILITARY ACCESSORIES DIVISION**

Fertigt eine ganze Reihe militärischer Produkte und zwar Metall- und Kunststoffhandschellen, Tonfa-Schlagstöcke, Nomex-Schutzhauben, Taschen und Ausrüstung für medizinische Dienste, Nomex®-Handschuhe, Warnwesten, taktische Brillen, taktische Molle-Westen, Pullover, T-Shirts, Kleidung für Geheimdienste aus verschiedenen Stoffen, z.B. Defender M®.

В 25-ю годовщину существования нашей компании мы с удовольствием представляем вам произошедшие у нас изменения. В связи с динамичным развитием и запросами рынка товаров военного и полицейского ассортимента, компания «HOLSTERS HPE POLAND» идет навстречу ожиданиям клиентов, не отказываясь от своей известной торговой марки и логотипа, она преобразовывается в «HOLSTERS HPE POLAND & DIVISION GROUPS» и осуществляет разделение организационной структуры на отдельные дивизии, которые занимаются производством и распространением специализированных изделий.

#### **Дивизия «BALLISTIC DIVISION»**

Специализируется в производстве обшивки с различными видами твердых и мягких баллистических защитных вставок. Кроме этого, она производит пуленепробиваемые щиты и пуленепробиваемые шлемы. Вышеуказанные продукты производятся согласно спецификации клиента. Все конечные продукты подвергаются испытаниям и сертификации, согласно стандартам NIJ (Национальной инспекции по качеству), а также польским стандартам PN.

#### **Дивизия «ANTI-RIOT DIVISION»**

Главным продуктом является противоударная одежда по новейшей технологии «D3O»®, в пуленепробиваемой версии NIJ III, а также в противоножевой и противоосколочной версиях. Продукт прошел испытания и имеет сертификат, подтверждающий вышеуказанные параметры, согласно стандарту BS 7971-8:2003, а также стандарту NIJ III. Номер в каталоге 2875. Дивизия производит также каски, защитные щиты и дубинки.

#### **Дивизия «PEPPER SPRAY DIVISION»**

Дивизия специализируется в производстве оборонных газов различных конфигураций и видов, в зависимости от потребностей клиента. Мы располагаем собственной испытательной лабораторией, где продукты подвергаются тестированию, согласно наивысшим европейским и американским стандартам. Основные заказчики – это полиция, пограничная служба, службы безопасности. Наши продукты также используются частными клиентами, которым предлагаются специальные версии наших газов. Кроме этого, мы проводим обучение для специальных служб в рамках использования и применения оборонных газов.

#### **Дивизия «HOLSTERS & PLASTICS DIVISION»**

Специализируется в производстве кобур и аксессуаров из высококачественной кожи, материала «Kydex»® и корда.

#### **Дивизия «TACTICAL & MILITARY ACCESSORIES DIVISION»**

Занимается производством широкого спектра продуктов военного ассортимента таких как: металлические наручники, пластиковые наручники, дубинки-тонфы, шапки-маски из материала «Nomex»®, сумки и оснащение для медицинских служб, перчатки «Nomex»®, светоотражающие жилеты, тактические защитные очки, тактические жилеты типа «MOLLE», свитеры, рубашки, одежда для спецслужб, изготовленная из различных материалов, в частности «Defender M»®.

# INFORMATION SIGNS

## COMBAT ENVIRONMENT

Combat environment compatible garments provides with maximum durability.

## WATER, OIL & DIRT RESISTANT

Specifically designed materials resist water, oil, dirt and dust. It protects fabric from stains and damage.

## FLAME RETARDANT

Flame Retardant materials protects from serious burns and injuries caused by fire and

## WATER & WIND RESISTANT

Weather repellent materials provides some protection from cold, wind and rain.

## NIR

NIR - Near Infrared capacity to stay undetected by optical and electronic sensors.

## WATER & WIND PROOF

The modern membrane fabrics are fully waterproof, provides protection from wind, snow and rain.

## COMFORTABLE

Lightweight fabrics, ergonomics and smart seams placement, reducing skin irritation.

## INSULATION

Wide range of insulated garments provide excellent insulation in extremely cold weather conditions.

## BREATHABLE

Breathable fabrics provide thermal comfort and high level of ventilation between body and environment.

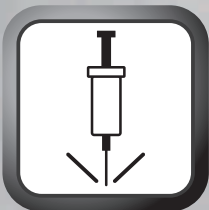

## BLUNT TRAUMA

Protects against blunt tools such as hammer or axe. Meets the highest level of trauma protection.

## BULLETPROOF

Different levels of protection NIJ Standard level III, IV and V.

## STAB PROTECTION

Resists against needles and knife attacks according to NIJ Standards.

## FRAGMENTATION PROTECTION

Protects against fragments according to NIJ Standards.

## STAB PROTECTION

Resists against needles and knife attacks according to NIJ Standards.

Specializes in the manufacturing of various types of soft and hard ballistic plates. It also produces ballistic shields and bulletproof helmets. It can manufacture the products according to customer's specification. The products are tested and certified in accordance with NIJ standard and Polish standards PN.

**HOLSTERS HPE POLAND** creates and manufactures products, services and technologies enhancing fightability and survivability of military and law enforcement professionals. Our product performance is based upon four main design aspects: function, ergonomics, materials and validation.

**FUNCTION**

In close cooperation with the most demanding customers Holsters HPE Poland develops a wide range of protective components. These fulfill the demanding, fast-changing needs of the military and law enforcement. Our lightweight components are highly adaptable to change in mission objectives and climate conditions. We also aim to protect against most environmental and man-made threats. We also specialize in signature management, making our components IR-protective.

**ERGONOMY**

We have made ergonomics one of our research priorities, enhancing comfort and mobility for our end users.

**RAW MATERIALS**

By running an accurate quality management process and partnering with some of the world’s leading raw material suppliers, Holsters HPE Poland can offer unique products in terms of performance and life cycle cost.

**VALIDATION**

Holsters HPE Poland has set a high standard for constant internal and external testing and accept only the best from our production. To proof the highest standards of our products we have ISO 9001 and military AQAP 2110 certificates.

**BULLETPROOF VEST WITH BALLISTIC PLATES**

# PRISON SHIELDS

It is ideal for violent situations which may become static for long periods and maximum protection is required from thrown objects, improvised weapons such as street furniture, or petrol bombs.

The multi purpose design of the shield allows for numerous tactics to be used. Group formations are enhanced due to the rapid interlocking capability, a typical mutual protection unit being three long shields in front and three intermediate shields for overhead protection. Capable of surviving extensive impact.

## PLASTIC SHIELDS FOR PRISON GUARDS

### SPECIFICATION:

- **LONG SHIELD** Height 18000mm x Width 570mm with 3 or 4 mm thickness
- **SHORT SHIELD** Height 12000mm x Width 570mm with 3 or 4 mm thickness

**ALL SHIELDS

## FRS MOLLE SYSTEM

Our FRS Molle System coming together of technology with the requirement for modular and versatile products. Originally designed for the military to quickly transfer the holster from the leg to the vest, it has now gone beyond strictly military functions to include law enforcement, concealed carry, and sporting applications. Whether the scenario facing you involves the need to adjust holster location to conserve space or to quickly switch out magazine it will help accomplish your goals.

**FRS MOLLE SYSTEM IS QUICK, EASY AND SECURE.** It provides soldiers the advantages they need on the battlefield. They can gear up fast and secure equipment to a vest, leg, belt or in a vehicle. Also, time and space is of the essence when entering and leaving air transport. The FRS allows the soldier to rearrange any holster or accessory easily and quickly between attachment points as the mission demands. The system allows for quick removal and installation between attachment points such as the MOLLE vest, belt loop and/or tactical leg shroud. Can also be used to mount in a vehicle. Mounting system allows the user to rearrange gear quickly and easily without the need for tools. Allows holstered weapons and accessories to be removed without removal of

# CAMUFLAGE HOLSTERS

## HYDROGRAPHICS

Hydrographics is a method of applying printed designs to three-dimensional objects by using water. It is one of the best modifications of objects with complex as well as simple shapes. It allows to finish and full coverage of inaccessible places in the corners and crevices. The coating becomes a protective layer which has a resistance characteristic of painted surface. The hydrographic process can be used on metal, plastic, glass, hard woods, and various other materials. It can be created in wide variety of patterns such as: camouflage, wood, granite, marble.

Hydrographics is successfully used by the American army. It allows to camouflage all kinds of weapons, attachments (optics), and other equipment. It does not affect the technical properties of elements, it is designed only for visual changes. My designs meet the standards in terms of the reflection of infrared radiation used in night vision devices.

# LEATHER HOLSTERS

HOLSTERS HPE POLAND offers a wide range of leather products. Holsters are hand - made wich allows to adjust them perfectly. They are made from premium grade, full grain leather. Our holsters lead the way in comfort, function and durability

W 25 rocznicę istnienia firmy mamy przyjemność państwu przedstawić zmiany zaistniałe w naszej firmie. W związku z dynamicznym rozwojem i potrzebami rynku militarnego i policyjnego firma HOLSTERS HPE POLAND wychodzi naprzeciw oczekiwaniom klientów, nie rezygnując ze swojej znanej marki oraz logo, przekształca się w HOLSTERS HPE POLAND & DIVISION GROUPS i dokonuje podziału struktury organizacyjnej na poszczególne dywizje które zajmują się produkcją i dystrybucją specjalistycznych produktów.

## **BALLISTIC DIVISION**

Specjalizuje się w produkcji poszycia z różnymi rodzajami wkładów balistycznych miękkich i twardych. Produkuje również tarcze kuloodporne oraz hełmy kuloodporne. Wykonuje w/w produkty według specyfikacji klienta. Wszystkie finalne produkty są badane i certyfikowane, zgodne z standardem NIJ oraz z polskimi normami PN.

## **ANTI-RIOT DIVISION**

Głównym produktem jest nowej generacji ubiór przeciw uderzeniowy w najnowszej technologii D3O®, a także w wersji kuloodpornej NIJ III oraz noże - i odłamkoodpornej. Produkt posiada badania i certyfikat potwierdzający w/w parametry zgodne z normą BS 7971-8:2003 oraz Standard NIJ III. Numer w katalogu 2875. Dywizja produkuje również kaski, tarcze ochronne i pałki.

## **PEPPER SPRAY DIVISION**

Dywizja specjalizująca się w produkcji gazów obronnych, różnych konfiguracjach i rodzajach, zależnie od potrzeb klienta. Posiadamy również własne laboratorium badawcze, gdzie wszystkie produkty są testowane według najwyższych europejskich i amerykańskich standardów. Główni odbiorcy to policja, straż graniczna, służby ochrony. Produkty również są używane przez klientów indywidualnych, którym dedykujemy specjalne wersje naszych gazów. Prowadzimy również szkolenia dla służb specjalnych w zakresie obsługi i używania gazów obronnych.

## **HOLSTERS & PLASTICS DIVISION**

Specjalizuje się w produkcji kabur i akcesoriów z wysokiej jakości skóry, kydexu® i cordury.

## **TACTICAL & MILITARY ACCESSORIES DIVISION**

Zajmuje się wytwarzaniem szeroką gamą produktów militarnych takich jak: kajdanki metalowe, kajdanki plastikowe, pałki Tonfa, kominiarki z Nomexu, torby i wyposażenie dla służb medycznych, rękawice Nomex®, kamizelki odbłaskowe, gogle taktyczne, kamizelki taktyczne w systemie Molle, swetry, koszulki, ubiory dla służb specjalnych wykonane z różnych materiałów np. Defender M®.
